CHEMISTRY PLUS HA EXECUTIVE DESK

SENATOR

Chemistry incorporates a height adjustable workstation solution to respond to the needs of today's office, where simple elegance and inherent functionality are a must to meet a multitude of applications. Chemistry height adjustable desks make individual requirements possible, allowing the option to vary posture and stand whilst working.

OVERVIEW

Executive Desk
HA

DESIGNER

Senator Design

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimize the impact on the world around us.

They come from all over the world, but are based in our Design Center located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test Center and prototyping lab.

Contains up to 43.07% of Recycled Material

Aluminum Castings	2.00%
Steel	5.50%
TFL	35.55%
Fabric	2.00%

Recyclability
The range is 99% recyclable

99%

THE THREE R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business. To meet both international standards and our own environmental targets we apply the three R's principle – **Reduce, Reuse and Recycle.**

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider ***Recycling***.

–Reduce
–Reuse
–Recycle
