# SPACE WITHIN A SPACE

Within open plan office environments it is more common today for employees to share resources such as printers and scanners. Aside from the general ambient noise of an

office it is generally accepted that it is these kind of devices whirring into life that provide much of the acoustic and visual distraction of colleagues utilizing them.

**DESIGN**  
Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Center located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test center and prototyping lab.

**STANDARD FEATURES** (\*Selected models only)

- Internal Steel frame with multi layered foam construction
- Vertical panels upholstered in Camira Blazer fabric (two-tone is standard)
- Quick release panel connector system
- Leveling adjusters
