

SENATOR

EVOLVE 2

With the development of Evolve we focused upon enhancing the intuitive comfort and simple user adjustment. It's ergonomically contoured back construction, flexible movement and Adjustable lumbar support, offers a level of comfort and support that is unsurpassed. Evolve incorporates a revised tilt action and the chair

is available in a choice of colours for the moulded components.

Evolve is ideally suited to those who sit at a desk for several hours every day. The inclusion of flexible seat and back membranes enhance comfort and flexibility whilst also delivering excellent thermal benefits to the user.

Design by Paul Brooks

Material Content

Components are constructed of the following

Recycled Content

Contains up to 41.5% of Recycled Material

Recyclability

The range is 99% recyclable

99%

Environmental information for this range has been based on HD405.

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

Whilst recycling is the element which receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.

Reduce Reuse Recycle
