**DESIGN**

Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Center located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test center and prototyping lab.

# UPLIFT YOUR WORKSPACE

XY tables are a smart, functional, height adjustable pull up table system. The personal laptop and side tables feature an easy push lift system for height adjustment between lounge and work height.

The pill shaped work tables adjust between work and standing height and incorporate a discrete control lever under the top to adjust the height.

The X & Y shaped bases provide fantastic stability while not being obtrusive; allowing the tables to be pulled up to where they are needed. For enhanced flexibility, the personal tables are available with casters.
