

HideAway

Your place to zone out or tune in.

A place to focus

Isolation isn't about being alone but about having a space to get things done.

We have all embraced online meetings and calls so having a place dedicated to communicate with clients, suppliers and co-workers with the comfort that you have great acoustic privacy and are less likely to be disturbed is essential.

Privacy For Calls

Connect with your colleagues without disturbing the whole office.

Zone Out to Zone In.

Need to focus, the acoustic properties of HideAway enable you to zone in on your work.

Focus

Power, USB and
USB-C enabled

Efficient
Ventilation

Private and
Individual Working

Architectural Features:

Integrated Lighting and Airflow:

As standard all HideAway's are provided with Energy Efficient Occupancy (PIR) activated LED ceiling light and ventilation fan

A Home from Home:

Wall mounted 'floating' worksurface or table finished in TFL / MFC with integrated power.

Functional Exteriors:

The exterior design can be specified to your requirements to create additional collaborative spaces.

A place for hybrid workers

There are times when you just need to get your head down and focus, this could be producing a report or document or for a longer video call with data being shared.

It can be supplied with an integral bench seat or a stand alone chair can be added. The work-surface provides ample room for a laptop, papers, while the connections allow you to hook up to a monitor and camera if you have them installed that create the perfect space for you to participate in a video call.

Privacy For Calls

Connect with your colleagues without disturbing the whole office.

Work Without Worry

Need to focus, the acoustic properties of HideAway enable you to zone in on your work.

Focus

Power, USB and USB-C enabled

Efficient Ventilation

Private and Individual Working

Architectural Features:

A Home from Home:

Wall mounted 'floating' worksurface finished in TFL / MFC with integrated power and HDMI connection to the wall mounted monitor.

Integrated Lighting and Airflow:

As standard all HideAway's are provided with Energy Efficient Occupancy (PIR) activated LED ceiling light and ventilation fan

Moveable:

The exterior design can be specified to your requirements from a selection of colors or drywipe to create additional collaborative spaces. The plinth can be removed to allow the fully built pod to be repositioned.

A place for collaboration

For many now time in the office is about reconnecting with your team, collaborating on a project the HideAway Meeting Pods provide an ideal space for small teams to gather privately, the fantastic acoustic performance allows them to focus on the work they are doing while not disturbing others in the office. The ability to add in an optional table or media screen allows ideas to be shared easily and also allows you to connect with remote team members so everyone is on the same page.

Privacy For Calls

Connect with your colleagues without disturbing the whole office.

Work Without Worry

Need to focus, the acoustic properties of HideAway enable you to zone in on your work.

Meet Freely

Meet together for pre-scheduled or ad hoc meetings in-person or online.

Social

OD: 960mm / 38"

Leveling:

Positioning castors and static position
Leveling feet within the base.

Hybrid Work Pod
One Person

Product Code:
HWYUS01H

Structural Framework:

Lightweight composite side panels with outer surface covered in Aluminum finished in standard EPC color options

Glass Panels:

— Glass panels and door, 1/2" laminated clear. Acoustic glass. Front and rear Aluminum Trims finished in Standard EPC color options

Interior:

- Interior fabric clad acoustic tiles, upholstered in Camira Blazer with Acoustic fiber infill as standard
- Flooring floor tiles, antistatic, available in two finish colors as standard
- Door hardware finished in Black finish
- Optional: Can be specified without bench seat to allow a free standing task chair to be used

Lighting and Airflow:

- Energy Efficient Occupancy (PIR) activated LED ceiling light and ventilation fan
- Optional external occupancy light strip set in the side panels

Power:

1x Power Outlet HDMI and 30W power socket

Workstation:

- Wall mounted 'floating' worksurface finished in TFL / MFC. 29" AFF (740mm).
- Wall mounted VESA plate to mount Monitor with integrated HDMI connection.

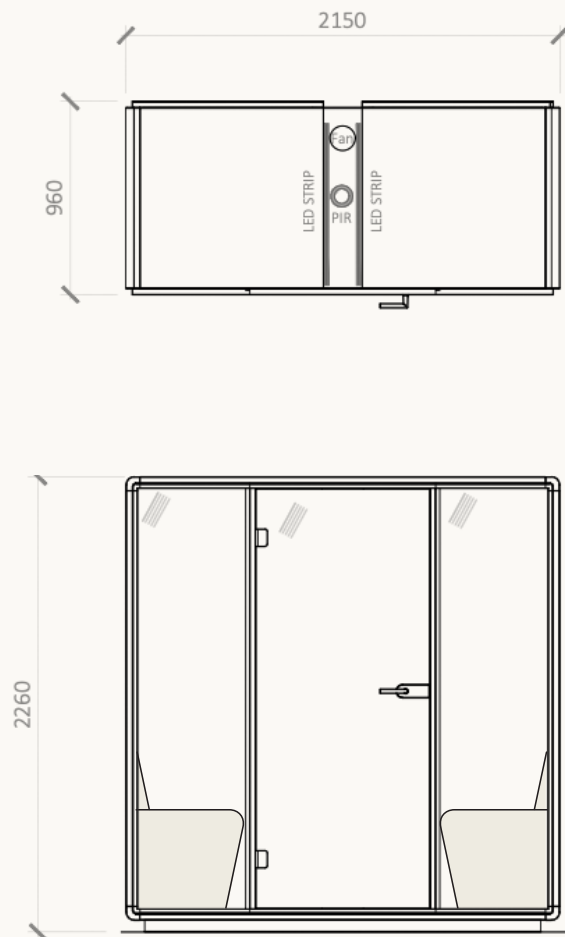

Dimensions:

OH: 2290mm / 90"
OW: 1588mm / 62.5"
OD: 960mm / 38"

Leveling:

Leveling feet concealed behind
removable base plinth
Plinth can be removed to enable
the fully built pod to be repositioned
with appropriate equipment

Meeting Pod
Two person

Product Code:
HWYUS02S

Structural Framework:

Lightweight composite side panels with outer surface covered in Aluminum finished in standard EPC color options.

Glass Panels:

- Glass panels and door, 1/2" laminated clear. Acoustic glass. Front and rear Aluminum Trims finished in Standard EPC color options.
