

SENATOR

**AD-LIB
SCHOLAR**

AD-LIB
SCHOLAR

IN A CLASS OF ITS OWN

Designed by PearsonLloyd as an addition to the Ad-Lib family, Scholar recognizes the changing nature of learning environments. Today the structured formality of learning environments is being replaced by the need for more interactive and flexible spaces, where students

move continually from collective to individual settings. Ad-Lib Scholar delivers a comprehensive solution with dynamic flexibility.

Mobility is central to the design of Ad-Lib Scholar. The chair's casters ensure the chair can be moved quickly and efficiently into any required

sitting configuration. The addition rotational foldaway tablet is a key element of this flexibility whilst the under seat storage tray and drink holder complete the holistic solution.

99%

Environmental information for this range has been based on ADLED1. For more detail please refer to individual EPA sheets.

DESIGN
PearsonLloyd

The London based practice takes a collaborative approach to its work, embracing the restrictions imposed by production, the market and all the other factors that define a brief. Their work is grounded in research and at

the core is an attempt to understand the relationship between a product, its place, and the way people use it. It is this innovative thinking that earned PearsonLloyd a Red Dot Award for the design of Ad-Lib for Senator.

AD-LIB
SCHOLAR
