OUSBY

OUSBY

CONFIDENCE WITHOUT EGO

Ousby is a task seating range that boasts exceptional comfort and affordability.

Designed using flexible, durable and sustainable materials that respond to your movements, Ousby is an organically shaped seating range that provides comfort and support throughout the day, whatever the task.

Offering a contoured mesh back, Ousby features an adjustable integrated lumbar as standard. Its multi-functional arms accommodate varied tasks and user preferences. Ousby also features a dynamic synchronised mechanism with quick tension adjustment and back locking in 5 positions.

DESIGN
Senator

Our team of talented in house designers are responsible for creating elegant, innovative furniture designs which not only look beautiful, but minimise the impact on the world around us.

They come from all over the world, but are based in our Design Center located in a quiet Lancashire village just outside the Ribble Valley. Our dedicated facility is over three floors which include studios, a materials test center and prototyping lab.

OUSBY

STANDARD SYNCHRONIZED TILT

- Featuring a synchronized mechanism geometry that links the motion of the seat and the 23° backrest recline with a ratio of 2.3:1. This ratio has been developed to encourage users to maintain the open, floating action of the chair that can have positive benefits for back health.
- The mechanism utilizes a multi-position back lock with five preset lockable positions including an upright position and is fitted with an "anti-kick" brake system or can be left free-floating, that is selected using the left hand control stalk.
- The mechanism also incorporates adjustments for: seat height, body weight adjustment using a rotational control on the right hand control stalk with seven preset positions. Seat depth adjustment is incorporated as standard. All controls and adjustments can be easily accessed from the seated position.

AT A GLANCE

1. Self supporting mesh back
2. 8 mesh colors
3. Adjustable lumbar support
4. Multi-adjustable arm
5. Dynamic synchronized mechanism with travel limitation in 4 steps, including locking upright
6. Seat depth adjustment
7. Black, Graphite or Light Gray components

GOOD TO KNOW
Mesh helps reduce fatigue by allowing your back to breathe

Please note: Features are model dependent, please refer to price list pages when specifying
