

DESTINATION

Destination designed by Jonathan Prestwich is designed to bring innovation, maximise comfort and increase productivity at transport terminals.

The innovative new design provides passengers with a higher level of comfort, utilising passive ergonomic design to optimise comfort and relaxation with integrated electrical power.

DIMENSIONS

DESIGN

Jonathan Prestwich

In 2004 Prestwich set up his own studio in London and quickly established a reputation for simple elegant products. Since then he has collaborated with several highly respected international companies, winning multiple awards for his

innovation.

Jonathan's wealth of experience is combined with a desire to make products for the next generation of users. Simple, elegant, innovative products which are influenced by nature and technology

- GS Certificate
- EN1335-2/3:2009
- ANSI/BIFMA X5.1:211

MATERIAL CONTENT

Components are constructed of the following

RECYCLED CONTENT

Contains up to 56.00% of Recycled Material

RECYCLABILITY

The range is 99% recyclable

99%

SENATOR 3 R'S

Senator is committed to continually improving the sustainability of all environmental aspects within our business.

To meet both international standards and our own environmental targets we apply the three R's principle

-Reduce, Reuse and Recycle.

While recycling is the element which

receives the most exposure it is actually the last option available and should never be the prime target in anyone's battle to reduce waste.

It is our duty as individuals and as a company to initially attempt to **Reduce** usage. Then we should look to **Reuse** wherever possible and finally, only after these two processes have been exhausted, should we consider **Recycling**.
